The original proposal by the College of Education requested both a suspension and termination of the degree program. The CPS title indicated termination, with the attached “proposal” indicating suspension. After considering the differences and implications regarding program suspension (which allows a program to be inactive with no new students being admitted into the program for three full academic years following approval by the Provost) and program termination, the College of Education decided to suspend the existing MA, MS, PhD in Mathematics Education.

Note: The CPS tracking number for the Mathematics Education proposal is 97910 rather than 97911.
