Termination of Endorsements, College of Education, 2017

Purpose:

Create an official record of ending these programs in the curriculum proposal system. This is housekeeping clean-up of endorsements in the Banner curriculum table SOACURR.

Description of Endorsements:

In summer 2015 (201600) the College of Education converted 11 endorsements into 11 options under the undergraduate Education major (233). This allowed students to use MyDegrees to track their progress.

The Education Double Degree (major code 233) is associated with professional license requirements established by the Oregon Teachers Standards and Practices Commission (TSPC). There are different requirements for various Authorizations (grade levels) and Endorsements (content/subject areas). Students will choose an option based on their desired Oregon Teaching License. The series of classes, basically the same, will have variations for different grade levels and different subject areas. The options will lay out the course work specified for each license.
