EXECUTIVE SUMMARY

The College of Education has completed its reorganization and merged over 20 graduate majors into four graduate majors. Following this reorganization, the Mathematics Education major 5620 and Science Education 6100 may no longer be needed as the various masters and doctoral degree program were converted to options and placed under the Education major 2310. This proposal is to suspend the graduate majors, Mathematics Education (5620) and Science Education (6100) for one year. After one year if we see no reason to keep them, we will terminate these majors.

Major Code	Graduate Majors	CIP#
5620	Mathematics Education	13.1311
6100	Science Education	13.1316
