   The College of Education has completed its reorganization and merged over 20 graduate majors into four graduate majors. Following this reorganization, the Science Education major (6100) may no longer be needed as it various options were created and placed under the Education major (2310). This proposal is to suspend the graduate major, Science Education (6100) for one year. After one year if we see no reason to keep them, we will terminate these majors.
