| 101920 | OC 449/OC 549 ECOLOGICAL THEORIES IN BIOLOGICAL AND FISHERIES OCEANOGRAPHY | 12/18/2017 | New Course | Spring 2018 | College of Earth Ocean & Atmos- pheric Sciences | https://secure.oregonstate.edu/ap/cps/proposals/view/101920 | The proposed course has appeal to not only CEOAS majors in oceanography, but to a variety of OSU students who work and are interested in making ecological inference from large data sets. These students include majors from IB, FW, Forestry, and Environmental Engineering. 1/19/18 - CC felt this course would benefit from broader liaison, particularly with math/stats but also other colleges with similar data issues (e.g. Forestry and Fish/Wildlife) as suggested in the justification. The council also took issue with "D-" being sufficient, and it may actually be contradictory to the pre-requisite requirements for the other classes. We recommend "C-" for consistency. HOLD until liaison and grading concerns are addressed. |
