Continued discussion of AR15.

The current draft of AR15, after changes by the ARC and AIC (Academic Integrity Committee), has inconsistencies in the language and possibly between the policy and Process that was developed by the AIC. Concerns were brought up that the AR15 cannot be finalized/made concrete until the new student code is done. We have questions for the AIC to clarify some language and procedures. Rebecca emailed Jesse Nelson (from the AIC) with questions to help clarify certain things in the AIC's Process Review draft.
