

Proposed Revisions to AR 21. Honor Roll

Note: Blue bolded text indicates proposed additions and shaded strike-through text indicates proposed deletions.

At the close of each term, the OSU Registrar publishes a list containing the names of all undergraduate and postbaccalaureate students who, for the term, **achieved a grade point average of 3.50 or above** and ~~have~~ completed at least ~~12~~ **6** graded credits ~~with a grade point average of 3.50 or above~~.

Rationale for the Proposed Revisions

- *This revision was proposed by Disability Access Services with the support of Ecampus. Many students do not take 12 credits for various reasons (e.g., have a disability, working full-time, full-time parent), or combination of reasons, but also excel academically. Lowering the number of required credits would be more inclusive and potentially provide the motivation for many systematically disadvantaged students to persist through their degree. The Academic Regulations Committee settled on 6 credits, as opposed to a different number, to align with the minimum number of credits required for financial aid.*
- *In discussions with the Faculty Senate Executive Committee, it was determined that the previous wording could be interpreted that if a student took more than 6 graded credits in a term, and they achieved a 3.50 GPA on 6 of those credits (but not the other credits), they would make Honor Roll. The revised wording makes it clear that Honor Roll is based on a 3.50 GPA for all graded credits taken in a term and that a student must have completed at least 6 graded credits in that term.*
