Catalog Description (this will display on the Overview tab in the Catalog)

The Master of Accountancy is a one-year master's program for students with an undergraduate degree in accounting. It allows accounting students to receive an undergraduate degree and a master's degree during their five years of university study required to become a CPA. As an integrated program, the MAC is designed to allow students the opportunity to plan early enough in their accounting education program to enable them to receive both an undergraduate degree and a graduate degree. The MAC is also designed to accommodate post-baccalaureate students wishing to prepare for accounting careers by completing a two-year plan of study.

Are you adding, removing or changing learning outcomes in this proposal?
