SEARCH COMMITTEE SERVICE (at the level of department head and above): UIT Executive Director of Business Architecture, 2023

CANDIDATE STATEMENT: Thank you for considering my nomination to serve on the Executive Committee. As a proud member of OSU's 25-year club, OSU alumna ('97 MBA) and member of the leadership team in the Division of Educational Ventures and Ecampus, I am passionate about making higher education more accessible and affordable. I have enjoyed working across the university to build strong collaborations with colleges and faculty, service units, enrollment management and the budget office. Strong faculty governance is essential to building rigorous academic programs that will serve today's modern learners, from online degrees to emerging formats like microcredentials and alternative credentials.
