Ecampus submits this memorandum to the Curriculum Council, according to the [Curriculum Council Review Process for Ecampus Proposals](#), as an information item, to indicate that the proposed program includes the same curricular requirements as the already-approved, already-offered minor on campus. The table below compares the required and elective courses offered on campus, those offered online, and the required pre-requisites for each course, if applicable. The pre-requisite courses are listed in bold font if they are already offered online or are already in development for delivery online.

Program Description

The Agricultural Business Management (ABM) minor will be offered to undergraduate majors in all departments who are pursuing an Ecampus degree. ABM minors must complete 27 credits, 12 of which must be upper division. The Agricultural Business Management minor is available to students who are not pursuing the ABM major.

The following table presents the current on-campus and proposed online curriculum, including pre-requisites for each.
