Candidate Statement: I have worn many hats at OSU but have always sought opportunities and responsibilities where I could most directly serve institutional missions of scholarship, education and service. The Executive Committee interacts with and serves virtually every component of the university. In so doing, the EC plays a critical role in helping the institution sustain a healthy balance of priorities and focus on its key constituents and missions. As a member of the EC, I will call on my experience working with students, staff, administrators and faculty of all ranks to ensure that our shared efforts are put to good use.
