

Curriculum Council

John Bailey and Allen Thompson, Co-Chairs

June 14, 2018

Approved in May...

- Mathematics Education – MA, MAS, PhD #97910
 - *Approved by Budgets & Fiscal Planning Committee, Curriculum Council and Faculty Senate Executive Committee.*

AND

- Science Education – MA, MS, PhD #97919
 - *Approved by Budgets & Fiscal Planning Committee, Curriculum Council and Faculty Senate Executive Committee*

Rationale:

College of Education reorganization into four graduate majors.

- **Mathematics Education major 5620 and Science Education 6100 may no longer be needed as the various masters and doctoral degree program were converted to *options* and placed under the Education major 2310. This proposal suspended 5620 and 6100 for one year. After one year if we see no reason to keep them, we will terminate these majors.**

Suspension of Academic Programs – Needs Approval

- Education – EDM, #100869
 - *Approved by Budgets & Fiscal Planning Committee, Graduate Council, Curriculum Council and Faculty Senate Executive Committee.*

Rationale:

The EdM in Education that has been offered online by Ecampus is being suspended due to low enrollment since the State no longer requires a Masters degree for teachers.
