

Request for Exception to Expedited Category II Policy to Drop Pre-requisite Courses
(Curriculum Council initially discussed on May 17, 2019)

Note: During the May 17, 2019 Curriculum Council discussion, since concern was expressed about how Sociology faculty feel about the proposal, the next step identified was to invite Andrew Valls (proposer and Interim Director, School of Public Policy) and some Sociology professors to the Curriculum Council to support the request.

[Does the below communication satisfy the need for discussion with Sociology professors?](#)

Subject: Sociology Removal of Pre-Requisites

Hello Andrew,

The sociology faculty have agreed to have all pre-requisites removed (with the exception of SOC315 as a pre-requisite to SOC316 – this may change down the road, but will be part of a future curriculum discussion). Thank you for agreeing to shepherd the process of removing the pre-requisites. I will work with Robin to get the word out to other advisors. Also, could you please confirm that Sociology can go forward with hiring a full-time instructor for one year?

Sincerely,

Lori

Lori A. Cramer, Ph.D.
