

## **Proposal**

Proposal ID: 84735

Type: Renaming an Academic Program

Submission Date: June 28, 2012 10:28am

Comments: This is an expedited Abbreviated Category I to correct the name of the degree currently in Banner as Fisheries and Wildlife but which should have been Fisheries and Wildlife Sciences. This request comes from the Department of Fisheries and Wildlife.

Sarah,

Please attach this email string and Dan Edge's decision to rename the degree BS in Fisheries and Wildlife Sciences to the expedited Abbreviated Category I proposal.

Thanks,

--Gary

**Subject:** RE: Correct title for F&W major?

Thanks Gary,

Please make it Fisheries and Wildlife Sciences

Sorry for all the trouble.

**Subject:** RE: Correct title for F&W major?

Dan, et al,

Later this week, Sarah Williams and I will compose an expedited Abbreviated Category I proposal. This CPS proposal will then be forwarded to Mike Bailey, Chair of the Curriculum Council. With Mike's permission and approval, I will request that in early July the Curriculum Council review the proposed change to the program title. In addition, I will request an exemption to a review by the Budgets and Fiscal Planning

Committee. [Note: This procedure will be similar to the expedited Abbreviated Category I proposal that was prepared and reviewed by the Curriculum Council earlier this year when at the request of Pat Muir and Andrew Blaustein an “s” was added to the undergraduate and graduate programs in Environmental Sciences.]

The purpose of this expedited proposal will be to have a record of the change to the degree program title; i.e., BS in Fisheries and Wildlife to BS in Fisheries and Wildlife Science. In addition to changing the title in Banner SIS, Data Warehouse, MyDegrees, Catalog, Admissions, Institutional Research, ECampus, etc., OSU will also need to notify the Chancellor’s Office of the program title change.

Once the Curriculum Council approves the program title change, the Registrar’s Office will implement the changes to the Catalog and Banner (including the assignment of a new major code in the STVMAJR table). A campus announcement will be sent out from our office and from Academic Affairs that will notify other academic units and administrative offices of the title change. While a new SIS Major code will be assigned, the CIP number will remain the same: 030101.

Students who have already matriculated into Fisheries and Wildlife will have the option of completing their degree program with the existing Fisheries and Wildlife title or with the new Fisheries and Wildlife Sciences title (once approved). Beginning with the next academic year following approval, i.e., AY 2013-14, any new students will be enrolled ONLY under the new major title – BS in Fisheries and Wildlife Science.

We will contact you if Sarah or I have any questions as we prepare this proposal on your behalf.

Dan, here is my first question: Should the title be Fisheries and Wildlife Science (singular) or Fisheries and Wildlife Sciences (plural)?

At this preliminary juncture, if anyone has any questions, please let me know.

Thanks to all,

--Gary

**Subject:** FW: Correct title for F&W major?

Let's go with the 2 codes.

**To:** Edge, W. Daniel - FW  
**Subject:** RE: Correct title for F&W major?

It looks like that is our only option. Two codes is workable, I was using three for years.

**Subject:** RE: Correct title for F&W major?

Let's think about the implications on this....

Nancy, heartburn on new major code with respect to pulling data—I assume people in the system would stay as 133 unless they opted to change? Meaning we would have graduates from 2 codes over the next few years.

**Subject:** RE: Correct title for F&W major?

There are implications to students who have already received their diplomas and transcripts, as their major was listed as Fisheries and Wildlife not Fisheries and Wildlife Science. This has been this way in production for some time. We had a similar problem with Environmental Science and Environmental Sciences, who recognized the s was missing after 20 years. Because of the impact to prior graduates it was necessary to issue a new major code so as to not invalidate the prior students diplomas and transcripts.

**Subject:** Correct title for F&W major?

Hi, Nancy, Nancy and Dan,

Gary noticed a discrepancy in the title of the “**Fisheries and Wildlife**” undergrad major, # 133, in the printed catalog.

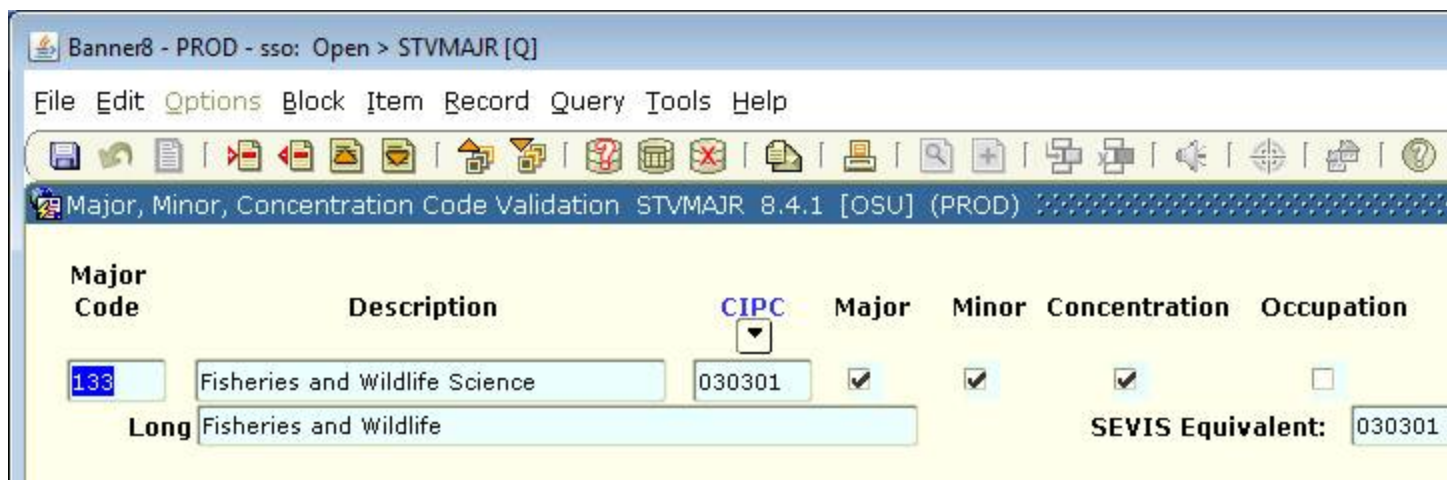

In the **F&W Dept overview page**, we list the major called for by this 1998 proposal: <http://catalog.oregonstate.edu/DepartmentDetail.aspx?code=FW> . The old Cat 1 database is at <http://oregonstate.edu/ap/curriculum/cat1sweb/index.htm> .

This proposal consolidated 2 undergraduate majors:

“Currently the Department of Fisheries and Wildlife offers two B.S. degrees, one in Fisheries Science and one in Wildlife Science and six Options. The degree Options are Fisheries/Business, Fishery Science, Marine Resources, Fishery Science, Marine Resources, Public Education/Extension, Wildlife Science, and Individual Studies. **Under the proposed curriculum, these would be reduced to a Specialty Option and a single B.S. Degree in Fisheries and Wildlife Science.**”

But the [BSG catalog page for the major itself](#), pulls the long title, which apparently was entered incorrectly many years ago. See screen print below:

The Banner STVMAJR table’s long and short titles differ:

In this old database for Category I proposals, the title is “**Fisheries and Wildlife Science**” in 1998: [http://oregonstate.edu/ap/curriculum/cat1sweb/1998-1999/FW\\_BS/fishwild.htm](http://oregonstate.edu/ap/curriculum/cat1sweb/1998-1999/FW_BS/fishwild.htm)

How should we proceed?

Thanks.

Larry
