CANDIDATE STATEMENT: I have a strong appreciation for the breadth, diversity, and complexity of this institution and its land grant obligations. Events of the last year reinforce the need for a strong anti-oppression focus in the academy and in society. If elected, my participation on the Executive Committee will reflect my belief in the importance of considering multiple viewpoints, experiences, impacts, and a rigorous commitment to social justice. I will work to ensure that perspectives of different faculty communities and members of marginalized communities are solicited and considered, and that the risk of differential impacts and other consequences are recognized and addressed.
