Re: Curriculum Liaison for Abbreviated Category I Proposal for Merger of Recreation Resource (RRM) Management and Tourism & Outdoor Leadership (TOL)

Dear colleague,

On the recommendation of an external review team, and with support of the faculty of the Recreation Resource Management (RRM) and Tourism and Outdoor Leadership (TOL) programs and our administrative leadership, we are proposing to merge the programs into a new BS degree: Tourism, Recreation, and Adventure Leadership (TRAL). You may find the proposal and associated documents on line at <https://secure.oregonstate.edu/ap/cps/proposals/view/98569>.

In accordance with OSU policy, I am required to notify you of our intent to make this change. We anticipate few impacts on your program, as most changes involve courses offered by our own faculty, reduction of the number of options, and renaming the degree. Nevertheless, I welcome any input you may have regarding this proposal. Please feel free to send comments, suggestions, or statements of support to me directly at troy.hall@oregonstate.edu.

Your timely response is appreciated. Please note that a lack of response by November 8 will be interpreted as support.

Sincerely,

A handwritten signature in blue ink that reads "Troy E. Hall".

Re: Curriculum Liaison for Abbreviated Category I Proposal for Merger of Recreation Resource (RRM) Management and Tourism & Outdoor Leadership (TOL)

Dear colleague,

On the recommendation of an external review team, and with support of the faculty of the Recreation Resource Management (RRM) and Tourism and Outdoor Leadership (TOL) programs and our administrative leadership, we are proposing to merge the programs into a new BS degree: Tourism, Recreation, and Adventure Leadership (TRAL). You may find the proposal and associated documents on line at <https://secure.oregonstate.edu/ap/cps/proposals/view/98569>.

In accordance with OSU policy, I am required to notify you of our intent to make this change. We anticipate few impacts on your program, as most changes involve courses offered by our own faculty, reduction of the number of options, and renaming the degree. Nevertheless, I welcome any input you may have regarding this proposal. Please feel free to send comments, suggestions, or statements of support to me directly at troy.hall@oregonstate.edu.

Your timely response is appreciated. Please note that a lack of response by November 8 will be interpreted as support.

Sincerely,

A handwritten signature in blue ink that reads "Troy E. Hall".

Troy E. Hall
Professor and Department Head
Forest Ecosystems & Society
