Ex-Officio members present: Faculty Affairs – Heath Henry

Category II Reviews

- ART 411, WIC
 - They are adding a Cascades location but they did not provide a syllabus for the Cascades campus.
 - They need to define what the catalog essay is – it is referenced frequently but they do not go into detail on what it is or what the assignment entails.
 - Send back requesting additional syllabus and a description of the catalog essay.
- BI 319
 - All three major assignments assess BC LOs one and two. Should the committee expect differentiation?
 - The WIC office has no problem with this and states that this is common practice.
 - Course numbers range from 18-29 students. Is this an issue?
 - Historically, the BCC has allowed recertification of WIC courses up to 29 students in a course. 25 or fewer is preferred, but is not a hard restriction.
 - If the course goes over 29 students, they must add a TA or make a new section.
 - The syllabus uses old verbiage 'This course partially fulfills...' and it is not very prominently displayed on the syllabus.
 - WIC outcomes are verbatim.
 - Approve with note to move verbatim statement so it is more prominent.
